

HIGHER EDUCATION

The Budget's unprecedented level of investment in higher education reflects a continued commitment to affordability, more accessible institutions, higher quality programs, equitable outcomes, and more efficient degree pathways—all of which are critical for driving upward mobility across the state.

The Budget includes total funding of \$47.1 billion (\$25.7 billion General Fund and local property tax and \$21.4 billion other funds) for all higher education entities in 2021-22. The state's three public segments—the University of California (UC), the California State University (CSU), and the California Community Colleges (CCC)—receive substantial ongoing base augmentations, and the Budget includes significant investments to make postsecondary education more affordable, including expanding the state's Cal Grant program to additional CCC students. Also included are investments to make college savings accounts widely available to low-income children; provide grants to advance training and education for workers impacted by the COVID-19 Pandemic; promote learning-aligned, long-term career development opportunities; and support regional K-16 education collaboratives focused on streamlining educational pathways leading to in-demand jobs.

UNIVERSITY OF CALIFORNIA

The COVID-19 Pandemic underscored the importance of being able to act swiftly to adjust operations to best support students and complex university operations. To support a model that enables the UC Office of the President to further collaborate with
